Stylish and cost-effective external hard drive solution

Today's world is all about Gigabytes. Programs and data take up more and more storage space. The need for installing an extra hard drive on your PC or Mac is more present than ever. Opening your computer case and installing an internal hard drive can be a difficult job. So why not take the easy route? Freecom offers you the perfect storage upgrade for your computer: the new Freecom Hard Drive, a no-nonsense external hard drive in a stylish new design. No need to open your computer; just plug the Hard Drive into the USB (2.0 or 1.1) port of your PC or MAC and you instantly have a substantial increase in storage space. The Freecom Hard Drive is pre-formatted so you're ready to use your drive seconds after connecting it to your computer. At Freecom we create storage solutions from a consumer's perspective, where convenience, design and quality are key factors. Free your mind!

- Power Adapter
- USB cable (USB 2.0 & 1.1)
- Manual on CD & Quick Install Guide
- Free unlimited helpdesk support
- Two years manufacturers warranty

NTI SHADOW SOFTWARE:

NTI Shadow for PC and Mac is an easy-to-use backup application that automatically protects your photo, music, video, and various data files. It makes data restoration as easy as dragging and dropping files from one place to another. For real-time, continuous data backup, set Shadow to save your files/folders every time they change. You can also specify your backup schedule by the minute, hour, day, week and start time(s) and also choose a specific or even a customized file type with Shadow's new advanced file filtering.

Not only does Shadow allow users to automatically copy files from their PCs to various devices in real time, but it also preserves the files in their native format - meaning no additional software is necessary to restore files. Shadow works transparently in the background without disturbing you while you work, and does not take up important system resources.
